

DOWNTOWN APPLETON FARM MARKET WINTER VENDOR CONTACT DATABASE

For an alternative way to shop with the market vendors this year and still support your local farm and artisan vendors from the comfort of your home, you can shop direct with them this season and arrange pick up or delivery with the vendors themselves!

How it works:

- Shop directly with our vendors for the items you need from THIS LIST OF VENDORS – click through to their website/Facebook pages and work directly with them to get what you need!
- Work with that vendor directly to purchase and arrange pick up or delivery of your items.

Thank you for continuing to support the local farmers and producers in our community!
